LOGNOTE -- A/Chief, Operations Group, 7 February 1980

1. [ ] ISLAMABAD REMOTE- [ ] and  
I talked with [ ] AC/Foreign Network Division/OC about  
Commo plans for [ ] terminal in Islamabad. [ ] said  
they have no immediate plans for an Islamabad terminal as the  
Embassy is in temporary quarters and OC will not expend the  
funds for a temporary installation. Instead, he said a new  
[ ] terminal is scheduled for Karachi this fall. We explained  
to [ ] that we have been tasked by Carlucci and provided  
funds for expanded coverage of South Asia. We said our require-  
ments are for a four-receiver RAMS type operation and described  
our data rate requirements. He suggested we coordinate all  
technical details with [ ] SIS/OC. [ ] subse-  
quently called [ ] and explained our requirements for a RAMS  
operation in Islamabad. [ ] said OC's communications out of  
Islamabad are a 100 wpm TTY circuit. According to OSO, however,  
there is a local PTT microwave system linking Islamabad and  
Karachi, which we could conceivably use to carry audio material  
to [ ] terminal in Karachi; that would have to be  
explored. [ ] said what he needed was a requirements state-  
ment giving a time frame, proposed funding and a deadline for  
the obligation of funds.

Recommendation: D/FBIS call D/OC advising him of our requirement  
and alerting him of impending requirements request. See  
attached draft.
